JAN 04 2001

Dear Sir:

SUPPLEMENTAL OFFICE OF PETITIONS
DECLARATION IN SUPPORT OF PETITION UNDER 37 CFR 1.10(c) DEPUTY A/C PATENTS

I Deanna Rivernider declare as follows:

1. I am employed as a legal assistant to attorney Peter Corless of the law firm Edwards & Angell, LLP. I work out of Edwards and Angell's satellite office in Marlborough, Massachusetts.

2. Peter Corless received a decision dismissing petition dated September 21, 2001 due to insufficient information and a Petition for Reconsideration is enclosed.

3. Immediately upon receipt of the Dismissal of the Petition received from the U.S. Patent Office, I contacted the U.S. Post Office and explained that the copy of the facsimile letter from the United States Postal was not sufficient proof of the "Date-In" of the package. Since the person who deposited the package did not keep a copy of the Express Mail Label or record the date in a log book, I asked the U.S. Post Office (South Station Annex, Boston, Massachusetts) to attempt to locate their copy. After quite some time, I received a telephone call from the U.S. Postal worker assisting me with this matter who informed me that they were unable to locate a copy since it was over six months old. He informed me that he would then attempt to locate the "Finance Copy" of the label. I have since contacted the U.S. Post Office regarding the status of the search several times, including today, and was told that they are still

attempting to locate the "Finance Copy" and that it would take time because of the amount of time that has lapsed since deposit of the package. I requested that they continue to attempt to find the Finance copy of the Express Mail Label and was assured a copy showing proof of the "Date-In" would be sent to me via facsimile as soon as it is located.

4. Enclosed herewith for additional proof of "Date-In" of the Express Mail Package is a copy of two letters that I forwarded to our clients the date that I forwarded the applications to the U.S. Patent Office and respectfully request that these documents be considered proof of the date the package was deposited to retain the U.S. Patent Application priority date.

5. I also enclose a copy of the documents forwarded with the original Petition to Accord Correspondence Filing Date Shown on Express Mail Label "Date-In".

6. I hereby further declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true, and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

In re Application of
George G. Barclay et al
Application No. 09/778,365
Filed: February 8, 2001
Attorney Docket No. 50533

:
: DECISION DISMISSING
: PETITION
:
:

This is a decision on the petition under 37 CFR 1.10(c) filed September 4, 2001, which is properly treated as a petition under 37 CFR 1.10 (d), requesting that the above-identified application be accorded a filing date of February 7, 2001, rather than the presently accorded filing date of February 8, 2001.

Petitioners request the earlier filing date on the basis that the application was purportedly deposited in Express Mail service on February 7, 2001. In support, the petition is accompanied by a declaration of Deanna Rivernider, a legal assistant to attorney Peter Corless, and a copy of a facsimile letter from the United States Postal Service (USPS) confirming that the package in question was delivered to the PTO on February 8, 2001.

Paragraph (a) of 37 CFR 1.10 states that:

Any correspondence received by the Patent and Trademark Office (Office) that was delivered by the "Express Mail Post Office to Addressee" service of the United States Postal Service (USPS) will be considered filed in the Office on the date of deposit with the USPS. The date of deposit with the USPS is shown by the "date-in" on the "Express Mail" mailing label or other official USPS notation. If the USPS deposit date cannot be determined, the correspondence will be accorded the Office receipt date as the filing date. See §1.6(a).

Paragraph (d) of 37 CFR 1.10 states that:

Any person filing correspondence under this section that was received by the Office and delivered by the "Express Mail Post Office to Addressee" service of the USPS, who can show that the "date-in" on the "Express Mail" mailing label or other official notation entered by the USPS was incorrect,

RECEIVED

JAN 04 2001

OFFICE OF PETITIONS
DEPUTY A/C PATENTS

entered or omitted by the USPS, may petition the Commissioner to accord the correspondence a filing date as of the date the correspondence is shown to have been deposited with the USPS, provided that:

- (1) The petition is filed promptly after the person becomes aware that the Office has accorded, or will accord, a filing date based upon an incorrect entry by the USPS;
- (2) The number of the "Express Mail" mailing label was placed on the paper(s) or fee(s) that constitute the correspondence prior to the original mailing by "Express Mail"; and
- (3) The petition includes a showing which establishes, to the satisfaction of the Commissioner, that the requested filing date was the date the correspondence was deposited in "Express Mail Post Office to Addressee" service prior to the last scheduled pickup for that day. Any showing pursuant to this paragraph must be corroborated by evidence from the USPS or that came into being after deposit and within one business day of the deposit of the correspondence in the "Express Mail Post Office to Addressee" service of the USPS. Any statement submitted in support of such a showing pursuant to this paragraph must be a verified statement if made by a person other than an employee of the USPS or a practitioner as defined in § 10.1(r) of this chapter.

A grantable petition under 37 CFR 1.10(d) must include "a showing which establishes, to the satisfaction of the Commissioner, that the requested filing date was the date the correspondence was deposited in 'Express Mail Post Office to Addressee' service prior to the last scheduled pickup for that day." In addition, the showing "must be corroborated by evidence from the USPS or that came into being after deposit and within one business day of the deposit of the correspondence in the 'Express Mail Post Office to Addressee' service of the USPS." Evidence from the USPS may be the Express Mail Corporate Account Mailing Statement. Evidence that came into being within one day after the deposit of the correspondence as Express Mail may be in the form of a log book which contains information such the place, date and time of deposit; the time of the last scheduled pick-up for that date; and the date and time of entry in the log.

The petition filed September 4, 2001 is not accompanied by the evidence required by the rule. Accordingly, the petition is dismissed. The \$130.00 petition fee is being credited to counsel's deposit account.

Any request for reconsideration of this decision should be filed within **TWO MONTHS** of the date of this decision in order to be considered timely (see 37 CFR 1.181(f)) and should be addressed as follows:

The application is being returned to Initial Patent Examination Division to await petitioners' response to the Notice mailed April 2, 2001.

Telephone inquiries specific to this matter should be directed to Wan Laymon at (703) 306-5685.

Docket No. 50533

Express Mail Label No. EL770089445US

HIGH RESOLUTION PHOTORESIST COMPOSITIONS

BACKGROUND OF THE INVENTION

1. Field of the Invention

The present invention relates to photoresist compositions and methods for preparation of same and, more particularly, to preparative methods that produce high resolution resists.

2. Background

Photoresists are photosensitive films for transfer of images to a substrate and form negative or positive images. After coating a photoresist on a substrate, the coating is exposed through a patterned photomask to a source of activating energy such as ultraviolet light to form a latent image in the photoresist coating. The photomask has areas opaque and transparent to activating radiation that define a desired image to be transferred to the underlying substrate. A relief image is provided by development of the latent image pattern in the resist coating. The use of photoresists is generally described, for example, by Deforest, Photoresist Materials and Processes, McGraw Hill Book Company, New York (1975), and by Moreau, Semiconductor Lithography, Principals, Practices and Materials, Plenum Press, New York (1988).

While currently available photoresists are suitable for many applications, current resists also can exhibit significant shortcomings, particularly in high performance applications such as e.g. formation of highly resolved sub-half micron and sub-quarter micron features.

More recently, chemically-amplified-type resists have been increasingly employed. Such photoresists may be negative-acting or positive-acting and generally

DECLARATION IN SUPPORT OF PETITION UNDER 37 CFR 1.10(c)

I, Deanna Rivernider, declare as follows:

1. I am employed as a legal assistant to attorney Peter Corless of the law firm Edwards & Angell, LLP. I work out of Edwards and Angell's satellite office in Marlborough, Massachusetts.

2. While preparing a response to Notice to File Missing Parts on August 28, 2001 for the subject application, I noticed that the filing date of February 8, 2001 on the U.S. Patent Office Filing Receipt appeared to be incorrect. A copy of the Filing Receipt is attached hereto.

3. Immediately, upon discovering the discrepancy, I called the automated U.S. Express Mail status line and received information by telephone and facsimile indicating the package was delivered to M. Anderson in Washington D.C. 20231 on February 8, 2001 at 10:52 a.m. Therefore, the application should have been assigned the filing date of February 7, 2001 based on the date of deposit. A copy of the confirmation letter faxed from the United States Postal Service on August 28, 2001 is attached hereto.
